

# Family Engagement Network (FEN)

The purpose of the Family Engagement Network, or FEN, is to foster family involvement and engagement in education, especially for children with disabilities. We do this by assisting VDOE and each other in developing and implementing activities that:

## Recognize Family Engagement

Encourage schools and families to recognize the importance of family engagement.

## Facilitate Collaboration

Facilitate and promote collaboration among VDOE, PRCs, T/TACs, and family-led and other organizations invested in promoting family engagement.

## Foster Family Engagement

Foster family involvement and engagement in the education process.
